INSURANCE

Twenty-five years ago we paid 75c. per \$100 on a frame building with five coal stoves in different parts of the building. Today on same site, \$2.60 per \$100 on building now of brick and metal, one flue, and heated by steam. Then the city had a volunteer fire department and now a fine up to date paid system and yet look at the increase.

Looking at the changes in our own business every department is from 25 cents to 100 per cent. better and cheaper. Why is Kentucky's insurance rate higher than any State in the union and 4 per cent. higher than the average for the entire United States and territories.

Why a Woman will Make No Mistake in Buying a Conservative Winter Suit or Coat Even This Late in the Season.

Because she can get better material, better tailoring, better linings than in any spring suit at the price at which we offer our entire remaining stock.

Because as March is one of our winter months by fact if not by the calendar, as April usually brings chilly blasts instead of spring flowers, as a cold May is not an unfrequent calamity, a woman is assured of at least two months possibly three months steady immediate wear of garments bought now, and a gratifying sense of protection against autumn's first cold glance.

Because, and this is the biggest because, we are offering absolutely without reservation

Choice of Any Suit and Coat in the Stock, Ten Dollars

AMERICA STOREHOUSE OF RADIUM.
 In the last few years the world has depended largely upon the carbonate fields of Colorado for its supply of radium. The product of the Austrian mines is comparatively insignificant. In 1912, for example, Colorado produced about 20 grams of radium; the rest of the world, including Austria, furnished only about 3 1/2 grams. We thus produce approximately six times more than all the rest of civilization.

A TRUTHFUL BUT SARCASTIC EPIGRAM.
 James J. Hill, the great railroad magnate and all-round pessimist said that he believed supervision of railroad securities by the Interstate Commerce Commission would be better than by 48 state commissions, as at present. Asked if he favored Government ownership of the railroads he said:
 "If the Government will put reins on the active people and provide them with food and raiment this would be a fine country. After that the Government might undertake to arrange the weather."

H. P. BLAVATSKY ON THE MISSION OF THEOSOPHY.
 All who wish to know the actual conception that Madame Blavatsky herself had regarding the mission of Theosophy should read H. P. Blavatsky on the Mission of Theosophy by H. T. Edge, M. A., which has numerous quotations from Madame Blavatsky's writings. Speaking of the relation between moral improvement and mental and psychic growth, the writer shows that Madame Blavatsky unmistakably taught that moral improvement must come first. "On no point is she more insistent," he says. The writer further declares that the opposite view held by many, namely, "that mental and psychic development should be aimed at, in the hope or under the plea, that moral improvement will be the logical sequel," is both philosophically and by experience wrong.
 "Theosophy is intended to benefit individuals and races; hence it teaches the eternal truth that moral principle always has the first place."—By H. T. Edge, M. A.

REPRESENTATIVE GOVERNMENT.
 It is not believed that men are any more anxious to directly participate without the intervention of a representative, in the making of the laws, than they are to be their own lawyers, their own preachers, their own doctors, their own builders, their own everything, without leaving anything to chosen and paid representatives.

In every department of life, representation by others is recognized as sound business, and it is an absurdity to say it should not be applied to government. It is hard to see how any man who would abolish representative government, substituting therefor a direct, or purely democratic government, can give any reason for such a radical change, that will be satisfactory to any thinking man. It is a fact, as all history shows, that no government such as that some are advocating as against representative government, has ever stood the test of time.

If representative government has fallen short of what it should be, is it not a fact that the wrong remedy is being sought? Isn't it a fact that the people take it less seriously than they should? It is admitted that it takes training to make a successful practitioner in any one of the professions. It is conceded that it takes three years to make a carpenter, a mason, a shoemaker, a printer or any sort of a tradesman. But the idea seems to be with a good many that an election certificate is all that is necessary to make a statesman. Too many are engaged to make and administer the laws who are without training or adaptation. Here is something to be thought of and to be thought about seriously.—Portsmouth Blade.

MANY OUT OF A JOB.
 It wouldn't surprise us if the Administration discovered that a large proportion of the army of the unemployed was composed of Republican politicians.—Atlanta Journal.

ARRANGING FOR A REPUBLICAN BAND WAGON.
 Col. Sam Stairs has discovered for sale over at Mt. Olivet, Ky., the very thing get-together Republicans have been searching for—a band wagon—and he admonishes them to proceed thus: "Now, divided Republicans, there is a chance for you to get a band wagon of your own, one which you can climb on as often as you please, stay off or on, or 'get out and get under'."—Georgetown (O.) News-Democrat.

THE CHILDREN'S HOME SOCIETY.
 Let the Legislature not be unjust to the hundreds of children in care of the Kentucky Home Society, nor ungrateful to the men and women who have brought this work to its present condition. This is not an orphan's home, honorable as such institutions are; it is a society for the relief of homeless children for whom the State must care. It seeks out the little ones; brings them here for care, for medical attention, for physical improvement and for education.
 Here they are detained for a while, then homes, private homes, are found and the children are placed with those who will give them all they have missed, with the State still as their guardian.
 The managers of this home are entitled to the confidence of the Legislature. They are performing without fee or reward a work that relieves the State of a great burden.—Louisville Post.

NO ILLITERACY INVESTIGATION.
 We are glad that there is something that Congress declines to investigate. Earnest efforts have been made to induce Congress to appoint a commission to investigate adult illiteracy.

Adult illiteracy is not a matter of serious moment. Its importance has been greatly exaggerated. It is an interesting fact that the percentage of illiteracy increases as we advance from twenty years to sixty years. At twenty it is comparatively insignificant, showing that as was said in Congress, the present system of education is abolishing illiteracy by educating the young. The large percentage among the older people is due to the fact that forty and fifty years ago, when they were of school age, education was not so simple a thing as it is now, nor so easily obtainable, for today it is true that illiteracy is a voluntary condition and not a necessary one.

Moreover, illiteracy is a State and local question, and can only be solved at home. Thirty years ago the proposition was made in Congress by Senator Blair for Federal aid to education. It was debated at great length for several sessions and finally it was rejected by the almost solid vote of the Southern States.

It was a fortunate rejection. The responsibility for illiteracy or education has been brought home directly to each community and the South has made greater exertions in behalf of education than she would ever do had the burden been placed upon the Federal treasury.

Illiteracy is being gradually abolished. The process by which this education is going on should not be interrupted by any action of the Federal government, whatever form it may take.

It is encouraging at last to find that one legislative body is prepared to reject one proposition for another commission and for another appropriation.—Louisville Post.

Old Folks, Here's Real Joy For You

Wonderful ROOT JUICE Will Have You Feeling Ten Years Younger in That Many Days.

After fifty or sixty years of hard use and abuse the human engine needs frequent coaxing to keep it running smoothly and you'll be surprised at what a little of the right kind of coaxing will do. Rheumatic twinges, sore, stiffened joints, and muscles, lameness, weak kidneys, and bladder, nerve weakness, indigestion, loss of appetite, interrupted sleep and other ailments so common in advanced years are being made to disappear almost as if by magic.

"His I'm Ready for Anything Now." Wonderful ROOT JUICE, made from a collection of Nature's own restoratives, roots, herbs, leaves and barks, is accomplishing things for old folks that you'd scarcely believe possible. The way it builds up the system, cleans out the blood, stirs up the bowels and the liver, tones the stomach, and strengthens the weak places is remarkable. It exerts a splendid tonic upon the weakened nervous system too. It's different from anything else you ever tried and so dependable in its action that it is sold under a positive guarantee.
 No one takes any chances with ROOT JUICE. It has got to benefit and please everybody who takes it or back good every cent paid for it. That's the best kind of proof of its worth.
 Best of all, you don't have to take it for the rest of your natural life to get results. Most people feel its benefit within ten days. The appetite improves, so does digestion. That frequent and troublesome kidney action is regulated, so is the bowel action and almost before you realize it that stiffness and soreness in the limbs and muscles disappears. That shaky, nervous feeling gives way to lasting strength and force and you feel like a different person.
 Try it. You're not taking the slightest chance because you've got net results or your money back instantly. You'll say it's worth ten times the price and you'll feel better and stronger than you have in many a day. All good druggists sell ROOT JUICE at one dollar per large bottle and they positively guarantee it. Get ROOT JUICE this time and get relief—sold here by J. J. Wood & Son.

"The Greatest Kidney Remedy on Earth," Says a Grateful Woman

I want to tell you how much good your Swamp-Root did me. About four years ago, I suffered from what the doctors called fistula and for two years of that time, I endured what no tongue can tell. I also had inflammation of the bladder and I tried doctors' medicines without receiving any help. Some one told me about Dr. Kilmer's Swamp-Root.

After giving it a thorough trial, I received relief, so kept on using it and today I am a strong and well woman. If I ever feel badly or out of sorts, I take Swamp-Root and it always straightens me out. I honestly believe that this medicine would cure all troubles you recommend it for and it is a pleasure for me to send my testimony and photograph to you. I think Dr. Kilmer's Swamp-Root is one of the greatest medicines on earth.

Respectfully yours,

 Suffragettes Will Not Stop If King Refuses To Receive Their Deputation.
 London.—Mrs. Dacre-Fox informed a meeting of suffragettes she had delivered Mrs. Emmeline Pankhurst's letter at Buckingham Palace under escort of the gate policeman, who refused to allow her to enter alone.
 Mrs. Pankhurst's letter asked the King to receive a deputation which desired to complain of "the barbarous methods of torture" used by your majesty's Ministers.
 Mrs. Dacre-Fox handed the letter to the King's private secretary. If no reply is received another letter will be sent. "If his majesty is unwise to refuse to see the deputation," said Mrs. Dacre-Fox, "we will go to Buckingham Palace anyway."

TRAFFIC IS IMPOSSIBLE
And Wire Service Suffers Due To Snow-storm in West Virginia.

Charleston, W. Va.—Practically the whole of West Virginia is enveloped in a blanket of snow, which observers say has been the heaviest in many years.

The precipitation began early Sunday morning and continued without intermission during the entire day. The fall was heaviest in the mountain sections of the state, where huge drifts made traffic impossible.

Railroads, telegraph and telephone lines and the mining industry were the heaviest sufferers from the storm.

AN INCIDENT: AND A MEDICAL APHORISM

The Lodger:—I write wholly from memory; but the occurrence is yet vivid, and the attending maxim has not lost its force—has been in a measure governing, within its sphere, during all the years.

A governmental mission landed me in London, just preceding the Civil War. I was a recent graduate in medicine, and personally enthusiastic regarding matters "thoroughly appertaining." Ancient King's College was then—had long been the mecca of all the world's most ardent devotees in the "art curative." To be within reach of the shrine and not worship, was apostasy confessed in evidence of doubtful appreciation.

And of all occasions, 'twas the most fortunate for me—one of the most notable within the history of that time—honored temple of learning.

Sir Thomas Watson, for sixteen years just ending, had honored the chair of Theory and Practice of Medicine, had achieved a personal reputation for the good and great, equaled by few, surpassed by none—growing brighter with the passing of the years. A great man!

This was to be his last lecture—his farewell to King's College, and end to his life as immaculate instructor within its classic walls. I venture nothing descriptive of all the environment, nor of Dr. Watson's personnel: 'twas all far beyond me.

Closing his manuscript and turning to his vast audience he said, in substance: "With this ends my connection with King's College. Looking back, and condensing the many pages of my resumed instructions, I venture to submit as the real substance of it all, this: Of all diseases of which man may be seized, the fateful seat will be of the great tripod, the brain, the heart, the lungs—the initial avenues to impending death. The which ascertained, duty lies in obviating the TENDENCY to death! To do this—keep your patient

alive till he has time to get well! Farewell!"

This sage advice has many times steadied my quaking hand in the giving of a doubtful pill or powder! And yet, 'tis well to keep in mind the maxim of another wise Englishman—Oliver Cromwell—"Trust in the Lord! BUT—keep your powder dry."

The Proof That Maysville's Readers Cannot Deny.

What could furnish stronger evidence of the efficiency of any remedy than the test of time? Thousands of people testify that Doan's Kidney Pills have brought lasting results.

Home endorsement should prove undoubtedly the merit of this remedy. Years ago your friends and neighbors testified to the relief they had derived from the use of Doan's Kidney Pills. They now confirm their testimonial. They say time has completed the test.

Mr. C. Chisholm, 317 East Second street, Maysville, Ky., says: "There was a time when my kidneys were badly disordered and I was annoyed by many symptoms of kidney complaint. Doan's Kidney Pills, procured at Wood & Son's Drug Store, removed the trouble and my good health since then is evidence of their merit. I have seen many other cases where Doan's Kidney Pills have proven their worth. My former endorsement of this remedy still holds good."

D. D. D. In Hospitals; Standard Skin Cure

How many hospital patients, suffering the frightful itch, the raw scorching pain of skin disease, have been soothed to sleep by a soothing fluid washed in by the nurse's hands?

That fluid is the famous D. D. D. Prescription for eczema.

THE SUPERVISING NURSE of one of our prominent Catholic institutions (name of nurse and institution on application), writes regarding a patient: "The disease had eaten her eyebrows away. Her nose and lips had become disfigured. Since the use of D. D. D. her eyebrows are growing, her nose and face have assumed their natural expression."

How many eczema sufferers are paying their doctors for regular treatment and are being treated with this same soothing, healing fluid?

COUNTY LINE PASSES THROUGH THIS HOME

Two Beds in One Room in Cause Given To Children Attending Different Schools.

Batavia, Ohio.—It is probable that a condition exists near Tobasco, which is not equalled in Ohio. For some time there has been a question as to the exact location of the county line between Clermont and Hamilton counties upon the Ohio pike near Tobasco. A dispute having arisen between the directors of the Cherry Grove school district in Hamilton County and Tobasco school district in Clermont County, a surveyor was employed to establish the county line in order that the children might know which school they should attend, the Tobasco or Cherry Grove district. It was shown that the line and the children who sleep in one part of the house may be sent to one school, while those who sleep in the other part of the house will be sent to another school. The matter will be settled soon by the board of directors of each district.

STING LEFT BY VANDER

Paid Forty-Five Dollars For Overcoat That Local Dealers Were Selling For Ten—Costly Experience.

Recalling recent raids made upon Brown countians by clothing vendors selling twenty-dollar suits for \$5.98, a story told by Pete Linn, an employee of the Buena Clothing Company, of Ripley, fits nicely. One day a well known citizen over that way dropped into their store to show them a fifty-dollar overcoat he had purchased for thirty-five dollars. He was asked to put it on, and it simply hung on the man. While this was going on the man stated that after he had given his order, he had received a letter from the firm, stating it was a shame to put the kind of lining he had ordered in a coat made of such good cloth, and that for \$2.50 more they would use a better lining. The man sent the extra amount. He had dropped into the Buena establishment for the express purpose to show how much the home merchant was behind. When he had finished, Mr. Linn went to their stock and drew out the identical coat. It was placed upon the man every comparison made, then he was told that they had been selling it all the time for ten dollars. The conclusion was that the man left the coat he had ordered from the foreign dealer to have it altered that he might be able to wear it, thus making further cost. There is but one moral to this little incident.

YOU CAN'T EARN MONEY WHEN YOU'RE LAID UP

There are a lot of people in this town who cannot afford to be sick. Perhaps none of you feel that you can, but certainly some of you can't, for as soon as you are sick, your wages stop and worry and debts begin to pile up. The sensible thing for you to do, as soon as you feel run-down and worn out, no matter what the cause, is to take something just as quick as you can to build up strength and health. Make yourself more comfortable and provide against serious sickness.

We don't believe there is any other medicine made that will do as much to wards saving your health and thus helping you save your money as Rexall Olive Oil Emulsion. It is a medicine that gets right at the trouble and relieves it by toning the nerves, enriching the blood, and giving new strength and health to the whole body. It doesn't do this by means of alcohol or habit-forming drugs, because it contains none. Its strength and health-giving power is due to pure Olive Oil and the Hypophosphites, long endorsed by successful physicians, the one for its food value, the other for its tonic value. Here, for the first time, they are combined, and the result is a real nerve, blood and body-building medicine—a real strengthener that we are proud to tell you about. You don't need to hesitate in using it, because it doesn't do all we say it will and satisfy you in every way, it will cost you nothing. If it doesn't make you strong and well again, come back and get your money. It will be given to you without word or question. Soft only at the more than 7,000 Rexall Stores, and in this town only by us. \$1.00—Chenoweth Drug Company, corner Second and Sutton Streets, Maysville, Ky.

Motion was made to refund Mr. F. F. Gerbrich \$42.55 overpaid taxes. His honor, the Mayor, informed council they were setting a dangerous precedent in refunding taxes and that they could not lawfully do so. The motion prevailed and Mr. Gerbrich will get his money.

It was moved and seconded to revoke Mr. M. J. Donovan's license.

Mr. Donovan asked to be heard on his behalf. The request was granted. He grew somewhat eloquent, and several passages at arms occurred between him and Councilman Fleming. After the display of oratory a substitute motion was offered that the question of Mr. Donovan's license be referred to the License Committee. The substitute prevailed by a vote of six to five.

The improvement of the west end of West Third street was put in the hands of the Internal Improvement Committee.

Mr. Breed and Mr. Brown were introduced to the Council. Each spoke the merits of the street flushers they represented.

Farmers

Have you ever tried our way of borrowing money to pay for a farm?

You, of course, know that most farms are sold for one-third cash and the balance of the payment is represented by lien notes due in one and two years. You also know that there are times when it is impossible to pay these notes when they become due.

Our specialty is lending money on good farms for LONG PERIODS. Wouldn't you rather have five years to pay the balance than two years?

Any one expecting to buy farms this March will do well to come in and consult us about getting the money.

We have been giving satisfactory service for 24 years.

A Discovery

Worth While

talking about is the splendid quality of our fine old Rye Whisky. It is mellow, rich flavored and pure, and makes a most delightful highball or bracing drink. It is matchless in its medicinal properties, too, and it never gives one a headache. If you are a critic of good liquors, you will be pleased to recommend this brand after the first trial.

ELECTRIC SIGNS!

The distinguishing air of quality which a first-class Electric Sign gives to a store is the element which gives a sign its greatest value as an advertising medium and investment. The impression it makes is good. It blazes forth to the public that there is business enterprise, merchandise and methods up-to-date. It affects the entire atmosphere of the business district. The stranger says, "It is a live town," and publishes it abroad.

It is the Sign of the Times.
